

Steviol Glycosides

Niran BioChemical Limited. Your reliable food ingredients and chemicals supplier.

PRODUCT INTRODUCTION

Stevia is a sweetener and sugar substitute extracted from the leaves of the plant species *Stevia rebaudiana*. The active compounds of stevia are steviol glycosides (mainly stevioside and rebaudioside), which have up to 150 times the sweetness of sugar, are heat-stable, pH-stable, and not fermentable.

Product name Steviol Glycosides
Other names Stevia
stevia extract

Specifications overview

Routine packing 20 kg / carton
Place of origin China
Certifications KOSHER,
